# A BUSY DAY.

#### Gen. Harrison Besieged at the Capital.

The Rival New York Factions Harassing the General.

Blaine and Windom the Only Certainties So Far.

A Dinner at the White House-The President-Elect to Squarely Advocate the One-term Principle.

By Telegraph to The Times.
WASHINGTON, Feb. 27.—[By the Associated Press.] This has been a very busy day with the President-elect. There was a constant stream of visitors, notwithstanding the weather was very wet, slushy and disagreeable, until 2 o'clock, when the General shut himself up with his family for luncheon. The callers included members of Congress and other officials and Mr. and Mrs. Blaine.

Mrs. Blaine.

After luncheon the stream of visitors flowed on as broad and deep as ever. Cab-inet gossip was the absorbing theme every-where. Blaine and Windom were with Gen. Harrison longer than any of his other callers, and this fact served to fasten still more deeply in the popular mind the places

accorded them.

During the afternoon Rus sell Harrison visited the Capitol and held consultations wishted the Capitol and hell consultations with Senators Sherman, Quay, Paddock and others. His presence there set speculation afoot at a great pace. The general impression tonight is that beyond two or three places nothing is settled.

THE COAST'S CHANCES.

A Pacific Coast Senator said he was satisfied 10 days ago that Gen. Harrison had determined not to give the western alone

fied 10 days ago that Gen. Harrison had determined not to give the western slope representation in the cabinet; that now he is just as well satisfied that a Pacific Coast man is under consideration. It might be either Estee or Swift of California, or Gov. Moody of Oregon. The West wants the Interior Department.

Nebraska men interested in securing a place in the cabinet for John M. Thurston are compelled to confess that it looks like John W. Noble of Missouri for the place.

A new possibility has developed in the person of Congressman Coggswell of Massachusetts, who represents the Salem district, where Secretary Endicott resides. He is an old associate of Gen. Harrison, having commanded a brigade with him in Gen-Ward's division.

THE SLATES AGAIN BROKEN. Vermont representatives are urging ex-Gov. Redfield Proctor for Secretary of War

Gov. Redfield Proctor for Secretary of War and two or three authorities agree in asserting that Gov. Rusk of Wisconsin is no longer a possibility in this connection.

Two Congressmen who called upon Gen. Harrison and talked Cabinet to him say that Blaine and Windom are the only certainties; Wanamaker and Noble are probabilities, although considerable, opposition to the former has been devertial; all else is chaos.

Naturally, the chief interest centers about New York. The rival delegations are here working for Platt and Miller, one for the Treasury, the other for the Agricultural Department, and it is said the matter is greatly harassing God. Harrison.

afternoon from the White House proved to be an invitation to Gen. Harrison and wife to dine this evening at 7 with the President and Mrs. Cleveland. The invitation was accepted, and at the hour named the guests left the hotel for the White House.

During the day and evening the ladies received many calls, among them members of the Corean delegation, Minister Preston of Hayti and others. While the President and Mrs. Harrison, Lamont was initiating Halford into the mysteries of the official side of the Executive Mansion.

Congressman Belden of New York gave a dinner tonight to the Republican members and members-elect of Congress from the Empire State. After the dinner the delegation called on Gen. Harrison and Private Secretary Halford. Several members, when asked if the Cabinet had been discussed, assured the Associated Press reporter that it had not been. After the call on Gen. Harrison, a number of gentlemen gathered in Senator Hissock's parlor.

Vice-President-elect Morton and Mrs. Morton arrived this afternoon, and are stopping at the Arlington.

A ONE TERM MAN INDIANAPOLIS, Feb. 27 .- It is reported that Harrison will startle the country, par-ticularly the place hunters, by declaring in his inaugural address that he will under no circumstances be a candidate for renomination four years hence. This, it is said, is to give him greater freedom of action in making appointments.

Modest Mr. Blaine. Augusta (Me.), Feb. 27.—Hon. Henry Lord, President of the Maine Senate, today received the following telegram from James

received the following telegram from Jamer G. Blaine:
"I have this moment received Boutelle's letter suggesting that the Legislature provide the portrait of myself to be placed among the portraits of ex-Speakers of the National House of Representatives. Though well intended, I regret that the request was made, and hope that neither the Senate nor House will take any action whatever in the matter. It would be altogether distasteful to me to have such a proposition submitted to me to have such a proposition submitted to the Legislature."

Will Go Into Liquidation.

New York, Feb. 27.—At a meeting of the
Oregon Transcontinental directors today, a
committee was appointed to conduct negotiations for the sale of the Oregon Navigation stock in the treasury to the Union Pacific and Northern Pacific companies, which will deposit it under the trust proposed in the arbitration contract, which is now in the arbitration contract, which is now in the hands of the Union Pacific for ratification. If the sale is comsummated the Transcentinental Company will probably go intelliquidation.

Canada: Weary of Imported [Crooks. OTTAWA (Ont.), Feb. 27.—In the House today Weldon explained the provisions of his extraditable offenses. The dregs of Mexico and the United States, he said, are settling down in Canada, owing to he geographical position. It is within the power of the Canadian Parliament to set in motion machinery which will drive out criminals who are enjoying an asylum here. The bill was read a first time.

Republican Cluba' Convention.

Baltimone, Feb. 27.—The hotels are rapidly filling up with delegates to the convention of the National League of Republican Clubs, which meets tomorrow. Several constitutional amendments are to be adopted, and plans are to be perfected for solidifying the organization so as to insure effective and uniform work.

Natural Gas Explosions.

PITTEBURGH, Feb. 27.—Two natural gas explosions in this vicinity within the last 15 hours wrecked five buildings and injured a number of persons, one fatally and two others seriously. The explosions were caused by leaks in the pipes

As soon as these facts were made known, a committee of appraisers was appointed, and they examined the goods in Wagner's place and cut his insurance down from \$25,000 to \$2200, and made their report to the board of underwriters.

The board smelt a very large-sized mouse, and refused flatily to pay a cent of the insurance. Wagner became very angry at this course, and threatened to sue at once. The board then got mad and instituted an investigation which lasted about ten days. The evidence was very strong against The board time for in an and manufacture in the state of the state of

One of the head men of the board said to a Times reporter just after the investigation closed:

"We have made up our minds to give Wagner a chance to sue us, and if he does not do so at the end of a year, when he will be forever barred, we will prosecute him for all that is out, for something must be done to stop this kind of business on the coast." Nothing more was heard of the case until yesterday, when several members of the board again showed up in the city, and a Times reporter discovered that they are down here on the old Wagner business. They have not taken any steps as yet, but the year expired last Monday, and Mr. Wagner has falled to take any legal steps to secure the insurance money, and now it is too late, for the law plainly says that when an insurance company fails to pay its losses, the claimant must take legal steps within 12 months to make his claim valid. Instead of doing this, Wagner withdrew himself from the vulgar gaze of the public, and secured himself a little home in the southwestern portion of the city, and it is seldom that he is seen on the streets, although he was a prominent church member before he was burned out, and took an active part in Sunday-school work.

A prominent insurance man, who is well acquainted with the facts in the case, said to a Times reporter yesterday: "There has been more of this kind of business going on in California than in any State in the Union, and I for one am in favor of setting an example. Why Wagner has remained silent so long I don't know, but it looks as if he was afraid to enter into a fight with the companies. When there is nothing crooked, a policy-holder is always anxious to begin proceedings in the courts. For these reasons, and for the reason that Wagner's record back East is not exactly clean, I feel pretty confident that we can make it exceedingly warm for the gentleman."

All of the insurance men in the city are very bitter against Wagner, and the chances are that suit will be instituted against him within the next few days. The case will

## QUITE ANOTHER STORY

About the Dominguez-Tapia Im-

Later advices from the Dominguez ranch put a different face on the Dominguez-Tapia shooting affray. Dominguez, who is now in the County Jail, told the officers Tuesday night that Tapia assaulted him with a pistol, firing one shot at him, and that when he closed in on him Tapia struck him over the head with a weapon, before he disarmed him, and that he then came to town, when he was arrested before he could get a warrant for the other man. It is now said that Dominguez is the man who did the shooting, firing at Tapia and hitting him in the leg, breaking it, after which he ran away. Tapia's condition was said to be quite dangerous yesterday, as it was feared that the bone could not be properly set. Sheriff Aguirre says that he himself arrested Dominguez on a telegram from the ranch, and that he turned him over to Deputy Constable Henry Johnson to take to the jail. The rase will probably come up for investigation as soon as Tapia can come in, when the true facts will come out. firing one shot at him, and that when he

Considerable complaint has been coming in recently of the depredations of chicken thieves in the suburbs and from outlying towns, especially Norwalk and vicinity. Near that place, about a week ago, several men were attracted by the noise of chickens coming from a covered wagon drawn by two horses, and going toward the outfit to investigate, a couple of men who had the team in charge run off into the darkness and have not since returned to claim their property, which is in the hands of a man near Norwalk.

Yesterday morning a young woman was brought into the police station by Detective Metzler, where she was booked as Daisy Smith and locked up on a charge of burglary in the second degree. There was nothing proposessing about the woman in fact she The Insured Never Began an Action to Recover on His Policies.

Readers of The Times remember the fire a little over a year ago, in David Wagner's grocery store, at No. 3 North Springs street.

The fire was one of those mysterious happenings that so often occur when the insurance is much larger than the actual value of the property insured, and as soon as the Board of Underwitters learned that there might be a chance to show crooked work, they emipoyed several detectives, and a thorough investigation was made.

A great deal of evidence was taken before the board, and a very suspicious state of facts was made out against Wagner.

It seems that on the night of the fire Wagner went home quite early, er claimed that he did, but there were several with the place at the very time that he said has been saturated with one for the early discovery of the fire and the prompt action of the fire department, the chances are then discovered that Wagner had carried into his place much more coal oil than is permitted by law, and also that the back door had been opened by some one who was acquainted with the place, and that he did not lay a proper train of oil from the place where he started the fire to the cans, and the wore saved.

## A BROKEN PANE

An Irate Creditor Exonerated from Responsibility. A. Wilke was before Justice Van Dorn yesterday on the charge of breaking a large pane of glass in a building at the corner of Rose and First streets, occupied by Chris Stiegler as a bakery. Stiegler owed Wilke, an irascible German, for work done on the an irascible German, for work done on the premises, and had paid only a part of it. Wilke dunned him frequently for the balance, and could not get it. Finally, on February 16th, he drove by the bakery in a buggy and asked Stiegler again for the money. The latter applied an unmentionable epithet to his creditor, and, when the German jumped out of his buggy, ran into German jumped out of his buggy, ran into the house. Wilke got into the buggy again, and Stiegler came out. A second time Wilke weut after him, this time with the buggy whip. Stiegler ran into the front door, and just avoided the butt end of the whip, which broke the pane of glass, instead of his head. For this he had Wilke arrested. After hearing several witnesses Wilke was discharged.

Committed to Stockton.
Yesterday afternoon, in Judge Clark's court, Christine Hansen, a sallow, miserable-looking woman, was examined for insanity. She was found some time ago in a sanity. She was found some time ago in a deserted house trying to starve herself to death, and was taken to the County Hospital. Treatment has not been productive of very beneficial results in her case, and she was adjudged insane and ordered sent to Stockton. The peculiar form of her malady is religious mania. She sees all sorts of visions, and is fired with religious zeal which leads her into all sorts of extravagances, and it is claimed by those in charge of her that she has suicidal tendencies. She is originally from Rhinebeck, lowa, where some of her relatives now live. But her memory is so defective that she recollects but little about them. She presented a forlorn and pitiful appearance in court.

Licensed to Marry.

The marriage-license mill ground freely yesterday. The following were issued:

Norman B. Carter, aged 24, and Nettle M. Nettleton, aged 21; James Cussen, aged 32, and Mary E. McGuire, aged 18; John J. O'Connor, aged 33, and Mrs. Annie White, aged 29; Henry Jensen, aged 29, and Emma Ducker, aged 21; Jean Pomeroy, aged 40, and Louise Grammont, aged 39; Jesse Moreno, aged 23, and Clara Albrecht, aged 21; William J. Two more disconsolate married people were untied yesterday by Judge Clark. May Leonard was granted a divorce from her husband, John Leonard, without contest. The charge was crueity. They were married in Sacramento in 1885, and the wife alleged that her husband had since then beaten her, called her vile names and other-wise ill-treated her. She was granted the custody of a little boy, the result of the union, and was released from her claims.

BLOODY CUTTING AFFRAY NEAR COMPTON.

Guadalupe Castro Slashes a Basque in a Horrible and Probably Fatal Manner - The Supposed Settle-ment of a Long-Standing Feud.

Late yesterday afternoon a stabbing affair, which will probably prove fatal before morning, took place at the Amestory ranch near Compton, in this county. The news was brought in by Antonio Amestory, and Deputy Sheriff Hammell went out at once. On arriving at the ranch he learned once. On arriving at the ranch be learn that a man named Guadulupe Castro and a Frenchman whose name could not be learned, had a quarrel, when Castro drew large pocket-knife and began to slash the Frenchman in a most brutal manner. Before the fight ended Castro vic in a numerous state of the

The man was a most horrible sight to look on when Castro got through with him, and the physician who was called in as soon as possible stated that it is more than probable that the wounded man will die from the loss of blood.

The local authorities at Compton had falled to find the would-be murderer when Hannmell reached the scene, and he at once started out to look his man up, and soon found him stored away in the ranch barn. Hammell placed him under arrest, and brought him to the city, and landed him in the County Jail at 12:45 o'clock this morning.

the County Jail at 13:45 o'clock this morning.

There were no witnesses to the stabbing, and had not the Frenchman been found just after Castro left him, he would have bled to death.

Castro refused to talk last night, and simply said that the Frenchman struck him and he had cut him in self-defense. The Frenchman weighs only about 140 pounds, while Castro weighs 230 pounds, and is a powerful man. He has a bad reputation.

#### THE HALF WOMAN

And Her Case for a Double Seduc-The hungry-minded individuals who haunt courtrooms when any case with peculiarly racy characteristics comes up,

were present in force yesterday morning in bruited around that a seduction case would come before Justice Austin, and shortly after the doors were opened there was not

atter the doors were opened there was not a vacant seat in the courtroom.

The case was one brought by Eva Bieber, a pretty little girl between 16 and 17 years old, who delighted an appreciative public at the Dime Museum on Main street, near First, last fail, as the "half-woman." She is an unusually attractive young woman, and in the optical illusion which she engineered was the center of attraction for quite a number of dudes about town. She left the museum some time ago, and nothing more has been heard from her since until she appeared in court as the principal in a seduction case. The complaint was made against Dave Brown, plano player at the Dima museum, and Arthur Isaacs, son of the proprietor. They were defended by Honry T. Gage, Esq., and S. M. Peyton, Esq. The poople were represented by Deputy District Attorney McComas and Judge Harrison. There was a request for the exclusion of all persons present in the courtroom by the prosecution, to which Mr. Gage objected, but the doors were finally closed. The pretty defendant was put on the stand, but when she had testified that she was going on 17 years old, the court took a recess. The case against Isaacs, however, was dismissed before court adjourned.

At the afternoon session the District Attorney withdrew the complaint against Brown.

doors were finally closed. The pretty defendant was put on the stand, but when she had testified that she was going on 17 years old, the court took a recess. The case against Isaacs, however, was dismissed before court adjourned.

At the afternoon session the District Attorney withdrew the complaint against Brown.

Mr. Gage took up his hat, and with his client was about to leave the courtroom, when another complaint was filed, charging Brown with felony, in assisting to entitle the girl into a room in the Crystal Palace, on Main street, near Second. The purpose being the meeting of young Isaacs and the girl for illicit intercourse.

Mr. Gage resumed his seat, and the defendant was arraigned. He was placed under \$200 bond by Justice Austin, and March 12th fixed for the examination. The witnesses were all swern and directed to be present on that day.

None of the facts in the case have come out in court yet, but it is alleged that in spite of the youth of the "half-woman," she has had quite a varied experience. The episode of the Crystal Palace is not particularly savory for the piano-player and son of the proprietor, who participated in it. They will probably have to bring quite a number of witnesses to enable them to be let down easy. The youth and good looks of the girl have excited considerable sympathy for her, For only a "half-woman," she has achieved early notoriety, and is not in a very good physical condition. Her condition is said to be the immediate cause of the complaints made.

They Hold an Open Meeting, and Hear Addresses.

"Please do not say anything mean about us in The Times," said the secretary of the

Woman Suffrage Club last night at G.A.R. Hall, on Main street, when a reporter asked her the names of those who had addressed the meeting. Of course such a request demonstrated the fact that lovely woman demonstrated the fact that lovely woman knows how to use her 'fluence, and when she gets the franchise, as the speakers at the meeting said she would—and they know—she will exert it. The meeting was an open one, that is, public, and was quite well attended. The speakers were—the secretary told who they were when she had put in her special plea, suborning the press, as it were—Mrs. A. E. Kingsbury, president of the club, C. C. McConus, Esq., and Judge B. N. Smith. There was an instrumental solo by Miss James and a song by Mrs. Dunham.

solo by Miss James and a song by Mis. Danham.

The arguments for the right of suffrage by
the fair sex were pretty much the same as
have been heard divers and sundry times
before. They ranged from Alpha to Omega
and back again, and Mrs. Kingsbury was
very earnest in defense of the inalienable
right of woman to representation.

Judge Smith said that women were smarter than he was, and he is probably correct.
It was at this juncture that the Times reporter made inquries of the secretary, and
promised not to say anything mean. The
meeting then adjourned.

J. E. Swan, the investment banker of Minneapolis and New York, who has been stopping in the city some weeks, has effected the purchase of a 3000-acre tract at Murrietta, San Diego county. It is understood that the purchase price is \$200,000. Mr. Swan has made several heavy purchases of city property and is likely to make more. After remaining here about a month, be will go to Oregon and Washington Territory and thence East.

Mr. Swan is highly pleased with Southern California, as his investments seem to indicate, and it seems not improbable that he may conclude to come here to live.

En Telegraph to The Times.

SAN FRANCISCO, Feb. 27.—[By the Associated Press.] The Wells-Fargo officials are yet without any late tidings from the train-robbers' pursuers in Tulare county. From railroad men and press dispatches comes news that the robbers will be captured. General Superintendent Filmore of the Southern Pacific says it is best to keep back at present some very 'important information regarding them which has been obtained. He is perfectly satisfied that the robbers never stopped a train in this State before, and is equally positive that there are but two of them. The pursuers now number fully 150 men. The Sheriff of Stanislaus county is confident that he has found a warm trail.

BAKERSFIELD, Feb. 27.—A posse consisting of Sheriff Overall and Deputy Crawford of Tulare county, and Sheriff Graham and Deputies Wethington and Tibbets of this city, left this morning for Templar Mountains in search of the Pixley train-robbers.

W. Childs of Philadelphia, who is reported to have refused £1200 for it. The story of this manuscript is rather remarkable. "Our Mutual Friend" was reviewed in the Times at great length and in most laudatory terms by the late Mr. Dallas, who had previously informed Dickens that he had undertaken to do justice to "the new book" in that journal, the notices of which carried great weight in those days. Dickens so highly appreciated the value of the service which Mr. Dallas had rendered him that he presented him with the manuscript, which the enthusiastic critic received with the utmost effusion, vowing that he would always treasure it as one of his most precious possessions. Within a short time, however, the manuscript was sold to Mr. Childs for £250.

The Analysis

And report of the eminent Chicago chemist, C. Gilbert Wheeler, shows a remarkable similarity in the ingredients of the Corosado and Wisconsin Wankesha waters; he says that in fact their medicinal properties are almost identical. There is one thing, however, in favor of the Coronado Waukesha Eprings; They contain but one-half of the organic matter found in the Wisconsin Waukesha. Thus, while they are possessed of the same fruter, for the Coronado is absolutely the purer water.

Guesta Date Walkesha. Thus, while they are possessed of the same fruter, for the coronado is absolutely the purer water.

THE CITY FINANCES.

THE CITY FINANCES There are many rumors on the street concerning the present state of the city's financial condition. Taxes were levied last fall to the amount of \$62,000, which was considered sufficient to cover all requirements. Of this sum about \$65,000 has been cellected, leaving de-

linquent but \$7000. It now seems that there are not sufficient available funds there are not sufficient available funds in the city treasury to pay the expenses of the city government for 60 days

The statutes say distinctly that no city of the sixth class shall incur a debt of any sort without having available funds in the treasury (nor allow one to be incurred) to pay such debt. It makes a provision, however, whereby a debt may be incurred by a vote of the majority of the people at an election called for the purpose.—[Union. PERSONAL.

G. G. Green—Dear Sir: I am frequently troubled with severe colds, and the only remedy that will relieve me of them is your Boschee's German Syrup. I have used it for more than twelve years. It is a constant household companion with me. Our merchant here procured it first at my solicitation, and says he has sold a great many bottles. It is a very popular remedy in this section. Every person who has used it speaks in the highest terms of its merits. I do not know of a single case it has not cured. I first used it in Vermont, where I lived before coming here. I advise every one to use it, as it is certainly the best cough medicine I have ever known. I have tried nearly all of them at different times. Yours respectfully, Moses Grax, Proprietor Grist Mill.

ANOTHER CONTEMPT CASE.

A Mexican Caught Monkeying with the Buzz aw.

United States Judge Ross and District Attorney Denis are bound to create a wholesome respect for the administration of justice in their court. It is only a few days since a well-known Democratic politician was immured in the classic confines of the County Jail for interfering with the judicial procedure in the United States District Court, and is still there; and yesterday another would-be adjuster of the relations between the Government and persons before the bar of justice was cited to appear this morning for contempt. It was in the smusgling case against Hippolyte Gonjon. The defendant in this cause has been waiting a settlement of the charges against him for several months, continuances having been obtained from time to time. The case is now on trial, and the witnesses all present. Gonjon is accused of smuggling 800 fine Mexican circars across the Mexican border, near San Diego.

Deputy Revenue Collector Montgomery worked up the points against him, and it is selleved that there is quite a strong case on the part of the Government.

Yesterday morning, before the time for trial arrived, District Attorney Denis, whom offenders are beginning to understand keeps his eyes wide open, learned that one of the witnesses for the Government had been threatened in event of his giving his testimony as they believed he would. The facts were that, according to the witness's statement, he, Bartolo Flores, was approached during the forenoon by Alex. Sahin, a friend of Gonjon. Sahin is a wealthy Mexican, and Flores stated to the District Attorney that the Mexican told him that he had better be extremely careful how he testified in the case. If his evidence went against the defendant, he threatened that when they got back to Mexico he would have Flores arrested and tried for an offense which he had committed there.

There was some further conversation in which Flores alleges that Sahin fiatly asked him what the Government would give him is the fore more alleges that the sheat of hi

rict Attorney and told him the whole tory.

The case was finally brought up and was continued on motion of the District Attorney until this morning at 9:30 o'clock. As soon as the jury filed out of the room, Mr. Denis entered complaint against Sabin, and the witness recited his story to the Court, whereupon Judge Ross made an order for Sabin to appear and answer a charge of contempt.

It was thought while there might be no effort on the part of Sabin to leave the city, that it was best to be on the safe side, and a complaint was made before Clerk Van Dyke. Sabin was arrested and placed under bond. The bond was given in a short time by J. G. Estudillo and John Forster.

The United States Court proposes to maintain its dignity, and this fact will soon be universally recognized, although it is now generally understood, that he who tampers or attempts to tamper with it, is "fooling with a buzz-saw," or words to that effect. If the Mexican is found guility this morning, it will probably go hard with him, in view of such a recent attempt, as in the case of ex-Chief of Police Thomas Jefferson Cuddy, now reflecting upon the jurisdiction of the Court at his ease-in the County Jail, in charge of Jailer Darcy.

#### POLICE.

Col. Jacobs and Col. Miller Not to Carry Concealed Weapons.
The Board of Police Commissioners met at the Mayor's office yesterday afternoon, with His Honor presiding, and Mr. Kuhrts and Chief Cooney present.

The minutes of the previous meeting were read and approved, after which a petition was received from the peanut vender in front of the Farmers' and Merchants' Bank, asking to be allowed to remain where he is, and not be compelled to move. Denied, as there is an ordinance against it, and a remonstrance has been received from merchapts protesting against its continued violation.

A. M. Rawson was anyted the services and the services of the ser

merchapts protesting against its continued violation.

A. M. Rawson was awarded the contract for furnishing meals to the city prisoners, at 13½ cents per meal.

Saloon business was then taken up, and S. Rhinehardt was granted a license for the new Southern Facific depot. The proprietor of the Continental Hotel, at No. 29 San Pedro street, applied for a license, and the application was referred to the Chief for investigation.

Yates's application for a charge from 507 to 517 South Spring street again came up, but as he was not ready to make the move, action deferred until the next meeting.

J. D. Rice's license for the Turf Club saloon, on South Spring, was transferred to C. L. Clerg, as was also the licenses of Johnson & Hansen to Carrington & Herrick, at 447 South Olive street, and Collel & Costera, at No. 143 Upper Main street, to Charles Bell.

City Janitor Jacobs and Col. A. H. Miller applied for permits to carry soncealed weapons. Applications denied.

THE BLACK-EYED WIDDY

Who Caused the Unpleasantness on Temple Street.

The trisl of J. A. Cobb, a Temple-street barber, for assaulting Charles Youngworth, who runs a saloon on the corner of New High and Temple streets, was brought up yesterday before Justice Van Dorn, acting for Justice Savage. It will be remembered that the funny fracas took place several days ago. Youngworth had been in the habit of getting shaved in the barber shop, and Cobb had a dispute with him about a woman. Youngworth twitted Cobb with "mashing" the girls, which the latter resented, and tweaked the saloon-keeper's cose.

Several witnesses were examined yesterday, and the defense tried to prove that Youngsworth was interested more than the surface declarations showed. They claimed that there was a "black-eyed widdy" in the tase, and that it was jesiousy en Youngworth's part which dictated his facetionsness on the subject of "mashing." The fact that Youngworth has a family will probably cause a storm in the family circle, and the better half "will want to know, ton't you know." what all this "fuss" is about, and who the black-eyed one is. The tase was finally decided by the dismissal of the defendant.

#### A NOVEL IDEA To Raise Provisions for the Orphans

To Raise Provisions for the Orphans' Home.

A lady of this city has thought of the following plan to aid the Orphans' Home: Each child is requested to bring to Sunday school on next Sunday, March 3d, or the first Sunday after, that is convenient, at least one potato, apple, turnip, parcal of dried fruit or any other unperishable article of food. The officers of the Home, corner Alpine and Yale, will send for the contributions, if telephoned where and at what time they can be called for.

Perhaps all do not know that there are about 190 children at the Home; and that the public fund is not-quite sufficient to meet all the needs. The new building is paid for, but there is a slight deficit, which will be easily wheed out if the larder is filled, so that the money can be applied to paying off incoming bills.

If any pastor has not received a formal notice, it is hoped this will be accepted as an invitation.

HE TOOK THE WRONG MEDICINE.

Robert Stewart of Petaluma recently had a queer experience. He writes:

"Carbuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading sarsaparillas. To my surprise it made matters worse. This made me lose faith in sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla fried up boils and face cruptions instead of forcing more out as the potash sarsaparillas do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle with the same My brother also took a bottle with the same benefit. ROBERT STEWART,

"Fetaluma, Cai."

[Explanatory Note—The mineral iodide of potash, which is the basis of nearly all other sarsaparillas, attacks the blood direct, hence forces impurities through the skin, oreating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its vegetable alteratives stimulate the various secretive organs and thus eliminate all impurities through the natural channels, hence dries up pimples and skin eruptions at once. The above testimonial is a case in point.]

Deafness—A Wonderful Cure.
It is the general belief that very little can be done for ringing in the ears and catarrhal deafness. I make a statement of my case

be done for ringing in the ears and catarrhal deafaces. I make a statement of my case through gratitude to the doctors, as well as for the benefit of any who are troubled as I was. I was for a long time afflicted with ringing in the ears which made life a burden, and my hearing was failing so rapidly that I feared very much that I would soon become entirely deaf. The roaring, ringing and whistling were sometimes so great that I would be unable to sloop at night.

Everal friends recommended me to consult Drs. Davis & Blakeslees, 46% North Spring street, saying they would not undertake my case unless certain they could effect a cure. After they bad examined me and promised a favorable result from their treatment my thankfulness was unbounded.

I received such benefit from the first treatment that I felt confident I would be cured and in two weeks' time, thanks to the Doctor and a meroiful Providence, the noises were gone, and the hearing was entirely restored. The above will be verified by calling upon me at 255 North Fort street. George M. Cra'g.

The above is but one of the many testimonials Drs. Davis & Blakeslee have on file at their offices, 45% North Spring street. Hereafter a new one will be published every week, and we will endeavor to convince the most skeptical that many socalied incurable disease can be cured. They tell not what they can do, but what they have done, and if any one doubts their ability they invite an investigation, as every one whose name is used can be interviewed.

a state of the complete of the complete of the

a feeling as though there was not room

other symptoms occur after the disease has
made considerable progress. Then it is a
time when consumption is about to begin its
dreadful work. Up to this point the progress
of the disease may have been slow, and the
patient may, in expressing his confident hope
that it will "wear off," declare that he has had
the catarrh for years and has not seemed to

grand error which has peopled our cemeeries

The Turn of the Tide.

Denver seems to have prices of real estate a good deal higher than Los Angeles. Thousands of lots have been Angeles. laid out in that city during the past two or three years. Far out beyond the end of the Denver car lines lots sell for \$1000 apiece. Corner lots, in the business center, are said to be worth \$5000 a front foot. Rents are high also. A five-roomed cottage rents at \$35 a month.

Similar statistics, with slight variations, apply to Tacoma and other west-ern cities. In fact, the present price of property in this city is by no means high, all things considered. It is true that, at the heighth of the boom, eighteen months ago, prices of outside lots had been unduly inflated, but that is all over now. Then, buyers were more numerous, than sellers—an unhealthy state of affairs in the unimproved real estate market, as there is always a gread deal more land suitable for subdivision than can be improved. As a consequence the suburban tract business was overdone, as it has been and will be in all growing cities. Now, there are plenty of holders who are willing to sell at a moderate price. It is not likely that prices will ever be lower than they are today. Some splendid bargains can be picked up. It is difficult to imagine any better investment than judiciously-selected Los Angeles property. A good income can be had from the start, besides which, there is the inevitable large increase in

values which is bound to come. Before many months, there will be put in operation in this city the first part of a system of cable roads, which, when completed, will be one of the finest in the United States. It is a well-known fact that nothing increases the value of suburban property so rapidly as the opening of a first-class cable road. This has been shown in many cities, notably in San Francisco. The same will be the case here, without any doubt. Those who pick up property along the route of the new cable system will reap rich rewards. Then, we are on the eve of an era of extensive municipal improvements. The new city administration is pledged to construct, without delay, a complete sewer system. It will also, without doubt, give us street, boulevard and park improvements. All this will largely increase the value of property.

It is evident that these facts are impressing themselves upon the minds of long-headed capitalists. The real estate market, which has suffered from much depression during the past year, is beginning to revive. The facts of the case cannot be learned from the published transfers. These have averaged over \$100,000 a day, during the entire dull spell, when probably not one-tenth of that amount of fresh sales have been made. They have been chiefly the closing of old sales, exchanges, etc. visit to the real-estate dealers, will, however, show that, during the past few weeks, there has been a decided revival in the market, an improvement in the feeling among buyers, a greater disposition to pick up gains, and less hesitation at closing a trade, all of which presage the return of confidence and an upward turn of

the market. We believe that the lowest point has been reached in the real-estate market. The turn of the tide is upon us. Those who are looking for bargains had better make up their minds quickly, or they will have to pay more than they are now asked.

German Arrogance.

Germany seems to take it as a matter of course that the Samoans are to be chastised, for presuming to defend The object is to put into ments. The Cologne Gazette says:

"The more signal this chastisement and the more ample the satisfaction, the surer will be guaranteed that peace and order will remain undisturbed, and the more effective will be the resolutions of the conference by the three nations which possess equal rights to influence the future of Samoa."

This is pretty rich, when we consider that Germany forcibly abducted the rightful King of Samoa, and that it-was while they were trying to force an usurper upon the natives that the Germans were fired upon.

At the same time, there is no doubt that this is the object of the departure of the four German war vessels for Samoa. The United States should not sit idly by and see these unfortunate islanders blown to pieces for presuming to desire independent government. Such a course would be both cowardly and cruel.

Ir is announced that the Supreme Court of Tennessee has unanimously decided that the Governor cannot be restrained from issuing an election certificate to Mr. Ewan, the Republi can candidate in the Chattanooga Dis-trict. This assures the Republicans a majority in the next House of at least seven at the organization, unless some of the 15 Republicans who have not yet filed their certificates with the clerk are de-

AMUSEMENTS.

AT THE OPERA-HOUSE.—The play of Adrienne Lecouvreur, though founded upon sufficiently dramatic fact and written by Scribe, the noted adapter, is yet not only in many ways unsatisfactory, but drags for at least three of its five acts, in spite of every-thing. A whole act passes without the ap-pearance of the chief personage, and it is pearance of the chief personage, and it is not until the latter part of the fourth act that any adequate opportunity is afforded for dramatic display. It goes without saying that the quiet refinement of Mme. Modjeska's art made even the lighter parts interesting, showing by a hundred touches here and there the character, the tenderness, the devotion, the hope and the despair of "Adrienne's" nature. The beautiful pose, the living picture of scorn, upon which the curtain somewhat rudely feli, was the real introduction to the fluale, which, well known as it is has gained in fullness and perfection of detail—a terrible but beautiful death scenn, whose last despairing cry. "U 1 do not want to die!" rings in the ear long afterward.

want to die!" rings in the ear long afterward.

The scene preceding the entrance of the star is never quite appreciated, but none the less should the "Princess de Bouillon"—Charlotte Tittel—be praised for making it so admirable, especially as the jealous and vindictive is by no means her metur.

Mr. Vanderfelt as "Count Maurice de Saxe" was wholly disappointing. His idea of soldierly grace seems to consist in a swagger and a forced air of bravado, and he exhibits an enviable stolidity as a witness of the woes of his rival loves.

The portraval of the fatuous old "Prince de Bouillon" by Mr. Henley was marred by the absurd gait which is still supposed to be the proper thing for "age out of bed," but which, it is safe to say, was never seen off the stage, and is little honored in its observance.

The support as a whole was a seed in the stage of the stag

cided to accept the plan of Frank Van Trees, Lake Shore avenue, Los Angeles. The plans presented by this gentleman were considered most complete and most exquisite in point of drawing, and also combined the most original designs for booths, which last point was of great importance in deciding the vote.

The estimates upon these plans will be early given to the carpenter, Mr. Chaifin, that all possible preparation may be made before entering the Pavilion for actual work for the festival. The Executive Committee is actively at work and arrangements are progressing finely. All points toward a most successful campaign this year. Several societies have volunteered to join the festival society in carrying on its good work.

St. George (Ont.), Feb. 27.—[By the Associated Press.] The St. Louis express, passing here east-bound this evening, went through a bridge just east of the station. A broken tire on one of the engine wheels caused the rails to spread, and the first pas-senger car, a Pullman car, and the dining senger car, a Pullman car, and the dining car, went through the middle section of the bridge. The Pullman car, which contained most of the passengers, was thrown clear off the bridge, turning completely over and landing right side up. The dining car stands on end against the rier. A passenger car remains on the bridge. Eight persons were killed, and about thirty wounded persons have been taken out of the cars.

The dining-room car contained but seven persons besides the waiters. Supper had just been announced, and in a few minutes the car would have been filled and all must have perished.

The following is a list of the killed: George Teggat of Mitchell, William Wemp of London, Dr. Swan and A. W. Francis of Woodstock, Mr. McLean of Detroit, Mich.; Mr. Baines of Hamilton and Capt. Moore of Brantford, both of the Salvation Army; Mr. Peers of Woodstock.

It was the majority report, a minority dissenting.

On motion of Mr. Cullom, the Senate proceeded to the consideration of the Senate bill to amend the interstate commerce law and to act upon the two House amendments on which the Conference Committee was unable to agree.

on which the Conference Committee was unable to agree.

Mr. Sherman favored concurrence in the House amendments. One of them, he said, gave to State courts jurisdiction in certain cases of questions arising under the act. As to the other, it simply made it unlawful for any common carrier to transport reduced to the constitution of the controlling cars, tanks, or cylinders, except on condition that the railroad company shall charge the same rate per carload for transportation as it charges for oil transported in barrels. He referred to the Standard Oil Company as a glgantic corporation which was not only able to buy cars, but also to buy railroads. He was in favor of the general principle embodied in the amendment that every railroad company should be required to furnish the same facilities and modes of transportation for all alike.

Mr. Stewart opposed the amendments and Mr. Reagan supported them.

Mr. Cullom made an argument against them. He said the amendment in relation to cars for the transportation of petroleum, instead of carrying out equal and exact justice to the people, would enforce unjust discrimination. When one shipper required a railroad company to furnish a certain kind of a car, and the company declined to do so, and when the shipper furnished such cars for himself, it did not seem to him that such shipper was required by the statutory law, to supply the same facilities for all other shippers in the business. As to the other House amendment, to confer jurisdiction on State courts, Mr. Cullom believed the result would be that there would be different decisions in the construction of the national law. He was anxious to go just as far as he could consistently with law, the Constitution and duty in protecting the people, but he was anxious to go just as far as he could consistently with law, the Constitution and duty in protecting the people, but he was anxious to go just as far as he could consistently with law, the Constitution and the construction of the national for the business the sente adjour

Pigott Thought to Have Left France-His Capture Doubtful.

Parnell Congratulated by Tories and Liberals—The Thunderer's Apol-ogy Considered a Very Feeble Affair.

By Telegraph to The Times.

LONDON, Feb. 27.—|By Cable and Asso clated Press.] An immense crowd was present in the courtroom this morning when the session of the Parnell Commission opened, and much excitement was mani-fested. Parnell arrived at the courtroom early.

carly.

Attorney-General Webster stated to the Court that Shanuon, the Times's Dublin solicitor, had received a letter today from Pigott, who is in Paris. The letter was not in Pigott's writing. Shanuon immediately notified the Scotland-yard authorities of the receipt of the letter.

The Attorney-General then read the letter. It was dated Saturday, and contained the confession that Pigott made to Labouchere on that day. Pigott added that he desired to fully disclose that he fabricated the alleged facsimile of Parnell's letter published in the Times and the other letters he furnished that paper. He denied being in league with the American Brotherhood after he sold his newspaper, the Irishman. He admitted that he wrote the conversation with Eugene Davis at Lausanne from memory only. He told Houston he found the letters in a bag, but he fabricated them, using genuine letters of Parnell and Egan, copyling certain words showing the general character of the writing, tracing them against the window pane. He afterward destroyed the genuine letters. The second batch of letters ascribed to Parnell were imitated from a face similar published in the Times. He did not see Breslin in America. He admitted that Labouchere's account of the interview between them was in the main correct.

The letter dated Saturday was inclosed in another letter bearing date "Hotel du Monde, Paris, Tuesday," saying:

"Before leaving, the inclosed (the contession) was handed to me, having been left while I was out. I will write again soon.

Webster's feelet said everybody.

RIGHARD PIGOTT."

WEBSTER'S FEEBLE EXCUSE.

Atty.-Gen. Webster said everybody would agree that nobody could attach any weight to Pigott's evidence, and it was his duty to ask the Court to withdraw from considering the genuineness of the letters. The Times, he said, desired to express regret for publishing the letter, and the proprietors of that paper would themselves more fully express their regret later. He repudiated the allegations made by Sir Charles Russell yesterday that there was a foul conspiracy behind Pigott and Houston. It such a comspiracy existed the Times had no share in it. If the error of the Times ex-It such a conspiracy-existed the Times had no share in it. If the error of the Times extended beyond that, the court should make the fullest inquiry.

Sir Charles Russell said he had hoped the Attorney-General would have made stronger statements.

Attorney-General would have made stronges statements.

Parnell was then sworn. He denied signing the alleged letter of the 15th of May. Campbell, his secretary, did now write the letter. Witness had not heard of such a letter until he saw it published in the Times. Campbell had gone to Antwerp to endeavor to find Pigott. Parnell denied the genuineness of the other letters purporting to have been signed by himself and Egan. He said he and Egan had an extensive correspondence. He dictated to Campbell the letter regarding the interview asked by Pigott. The letter which the Times reproduced was evidently imitated from it. He had then had no interview with Pigott.

THE THUNDERER'S APOLOGY.

The Times will say tomorrow in a leading editorial quotes in full the apology tendered by Attornsy-General Webster before the Parnell Commission for the publication of the forged letters, and continues:

"We desire to indores as appropriate every word of the foregoing statement. Moreover, Mr. Parnell having in the witness box stated that the letters are forgeries, we accept in every respect the truth of that statement. In these circumstances we deem it right to express our regret, especially and sincerely, at having been induced to publish the letters as Mr. Parnell's or to use them in the evidence against him. This expression of regret includes also the letters falsely attributed to Mr. Egan, Mr. Davitt and Mr. O'Kelly. It is scarcely fibting now to enter into the circumstances under which we received and published them. We are bound, however, to point out that Pigott was not the person with whom we communicated. Moreover, we

conspiracy existed, the Times was victumized by it, and not a party to it. Errors in judgment may have been committed, and for them the penalty must be paid. It must be clearly understood that what we have done is altogether upon our own motion, and our own responsibility, and in the public interest alone. This withdrawal, or course, refers exclusively to the letters ob tained from Pigott."

The Times has withdrawn its advertisement of "Parnelliam and Crime" and "O'Donnell versus Walter." Applicants for pamphlets are informed that they are out of print.

The News will say tomorrow: "If anything could add to the degradation of the Times's avowal it would be the terms in which Sir Richard Webster made his so-called apology. For the credit of the bar, Sir Richard ought to have refused to connect himself with such an ignoble composition. If the bar caunot express its opinion of such behavior, Parliament must be invited to do so promptly."

A DISMAL DEPTH OF INPAMY.

The Daily News will say: "The Times' tried to destroy Parnell. Parnell has destroyed the Times. Never again shall any man who respects himself read its base accusations without a smile of languid disquist. The Times is no representative of the English press. We do not hesitate to say that no other English paper would have been capable of engaging in the abominable traffic which has led the Times to such a dismal depth of infamy."

THE FUGITIVE PERBURER.

In the House of Commons today Hon.
Henry Matthews, Secretary of State for Home Affairs, stated that the authorities were taking stops to secure the extradition of Pigott from Paris. Matthews also said he had no information reading liveries.

Henry Matthews, Secretary of State for Home Affairs, stated that the authorities were taking stops to secure the extradition of Pigott from Paris. Matthews also said he had no information regarding Houston at present that would justify him in preventing Houston from leaving the country. It is believed that Pigott posted the letter to Shannon at a railroad station in Paris, and then proceeded for either Spain or Switzerland. It appears that Pigott obtained on Monday from Lotherby's bookmart a check for £25 in payment for a number of rare books. Pigott had the check cashed that afternoon. The last time he was seen he was walking on Fleet street. An Englishman having the appearance of Pigott, but who gave no name, arrived at the Hotel du Monde, Paris, at 6 o'clock on Tuesday morning. After breakfasting he wrote a brief note on the hotel paper and inclosed it with other papers nan envelope, upon which he wrote a London address, He left between 8 and v o'clock.

Should Pigott be arreated in France, it is doubtful whether the French Government will regard perjury as extraditable.

Disreputable Dealers Attach Great Importance to It,

And With That Instinct "To the Manor Born," Resort to "Three-Ball" Tactics.

# CAUGHT in the VERY ACT of a SWINDLING GAME

And Folled in Their Efforts to Deceive the Public, They No Doubt Will Cringingly Deny the Soft Impeachment.

Like the Cowardly Assassin, They Attempt to Injure Our Business Reputation by Wil fully and Maliciously Robbing the Public Under the Guise of Our Fair Name.

OF THE TWENTY ODD DEPARTMENTS IN OUR HOUSE,

ONE (THE CLOAK AND SUIT DEPARTMENT)

Was under contract to a firm in Chicago, said contract to expire September 1st. It has been under the (mis)-management of incompetent agents. We have been painfully awars of the fact for months past, and would have summarily ejected both department and its manager but desired to avoid legal complications. We decided to "bide our time," and it has come. The irrevocable flat has been issued, and

GO IT MUST, GO IT WILL, ON MARCH 1st.

As a fitting finale to their past tricks we detected them in (the act of marking up nearly every garment in stock to prices that would cause a Baxter-street merchant to blush. A cheap cotton jacket that we advertised and sold at forty-five cents (see our ad in Tribune of October 28th, on file in our office), has been marked up to the extremely modest price of FOUR DOLLARS! FOUR DOLLARS! And so on throughout the department.

"At Less Than Sheward's(?) Prices,"

We consider it a duty we owe the public to expose all such nefarious tricks, and this alone is our apology for stepping aside to suppress trickery and deceit.

Yes, gentle reader, still further scan their announcement and you may possibly find (if we haven't frightened them out of it),
